## Eduardo Mualem

**Director at Eduardo Mualem & Asociados Safety and Environmental Consultancy.**

During my professional career and working as a team, I have accomplished decreasing Incident Frequency Rates and Property Damage. As a consequence of this, there were less jobs interruptions, increasing the productivity and improving business results.

**Graduated as Chemical Engineer (UNL, Argentina) and postgraduate as Safety Engineer (UTN, Argentina).**

**I've been working in management positions during more than 30 years in multinational and World Class Companies,** such as DOW CHEMICAL, Petrobras, Unilever, Syngenta and Bunge, where I gained a strong national and international experience, working with personnel from factories and from a global level.

**Director at Safety Diplomat in UCEL University, Rosario, Argentina.** I also work as **Safety Professor at a postgraduate level.** (FRR, UTN, Rosario, Argentina) teaching about Behavioral Safety and Incident Investigation. Safety and Environmental (HSE) lecturer in Argentina and globally.

Vast experience as HSE Professional in Argentina and different countries of America, Europe and Asia.

In addition to my systematic approach, focused in High Potential Exposures, **I am a specialist in Change Management in order to improve Safety Culture as part of a Continuous Improvement Process.**
